

December 16, 1937

A short student Council meeting was held in De Young's home after dinner. [ ] Campbell presented a plan. She has been asked by the American Student Union Association to represent Normal at the convention of this Association. She will furnish part of the funds and asked that the Council furnish \$15. The Council was asked to think this matter over.

Paul gave a report concerning the National Student Foundation of America. At the present time or affiliation with this foundation is cut off because our dues have run out. If we desire to join the dues will be \$37. In the latter part of December the NSFA is having a convention of Texas. The question is "would we want to send a representative?" It would cost between \$50 and \$70.

It was decided that we should think these matters over until Sunday, December 19. We shall meet in M 108 at three o'clock on that date.

Gail Baird

Sec.
