- I. Roll Call
- II. Approval of Minutes
 - a. Approved.
- III. Executive Officer Reports
 - a. Student Body President (M. Spialek)
 - i. This will be my last report to the assembly as student body president. By now you know that I believe that there is always a meaning behind what you say, and I couldn't have my last report be simply a report of what I have done since we previously met.
 - ii. But on the topic of what I have done, looking at this year and my tenure as president, I would say that I have made many decisions: big and small, popular and unpopular. Whatever your stance was on my decisions, please realize I made these decisions because I believed wholeheartedly that they were for the betterment of the student body.
 - iii. I know that the past few weeks have been stressful as one administration prepares to exit and a future administration fights to enter. Sides have been taken. There is no denying that. But as is the case in an election or a political process, people take a side and they make a choice. It is human nature not to be neutral.
 - iv. The student body has also made a decision, and there are those in this room that will agree and there are those who will disagree. But just as I have asked you to respect the decisions that I have made sitting in this seat, I ask that you respect the decision the student body has made tonight. We will move forward in these last ten days, we will take strides to finish

- strong, we will make progress as we have done throughout this year, and we will effectively transition a new batch of leaders to take action for excellence for the entire student body.
- v. Think of this transition as support not for one ticket or another. View this transition as support for the institution that is the Student Government Association. For while we all believe in different people, we find common cause in the purpose of a student governing body.
- vi. I have poured my life into this job, and I don't want to see what we have all worked so hard for fall backward because we looked short term at petty politics instead of long term at students' interests.
- vii. You also know that I am a communication major and as Senator Yancey tells her students and I will tell my COM 110 students next year, circular devices are important. So why not have one tonight?
- viii. We conclude our last business meeting tonight. But before this conclusion came an introduction. That introduction was one year ago today on March 31....the night before our last day of campaigning. I had sent a message to the entire ticket. As I read it last night, those words took on a different meaning. They were no longer filled with the anticipation of a novice but rather a reflection of a veteran. Many new people have joined since this message was sent, and some have left. The message still rings true.
 - ix. It reads: "I just wanted to say that I can't believe we are almost done with campaigning. Regardless of when you became a part of our team, we are glad to have you, and I am proud to have shared this experience with you. Let's make progress. This is just the beginning."
